Chilchinbeto Community School, Inc. (CCSI) authorizes students to use technology owned or otherwise provided by the school as necessary for instructional purposes. The use of technology is a privilege permitted at the school's discretion and is subject to the conditions and restrictions set forth in applicable policies, administrative regulations, and this Agreement. CCSI reserves the right to suspend access at any time, without notice, for any reason. CCSI expects all students to use technology responsibly in order to avoid potential problems and liability. CCSI may place reasonable restrictions on the sites, material, and/or information that students may access through the system. Each student who is authorized to use school technology and his/her parent/guardian shall sign this Agreement as an indication that they have read and understand the agreement. CCSI reserves the right to monitor and record all use of school technology, including, but not limited to, access to the Internet or social media, communications sent or received from school technology, or other uses. Monitoring/recording may occur at any time without prior notice for any legal purposes including, but not limited to, record retention and distribution and/or investigation of improper, illegal, or prohibited activity and equipment that is provided by the school. All passwords created for or used on any school technology are the sole property of CCSI. The creation or use of a password by a student on school technology does not create a reasonable expectation of privacy.

Students are expected to use school technology safely, responsibly, and for educational purposes only. Students shall not share their assigned online services account information, passwords, or other information used for identification and authorization purposes, and shall use the system only under the account to which they have been assigned. Since the use of school technology is intended for educational purposes, students shall not have any expectation of privacy in any use of school technology. Students are prohibited from using school technology for improper purposes, including, but not limited to, use of school technology to:

1. Access, post, display, or otherwise use material that is discriminatory, libelous, defamatory, obscene, sexually explicit, or disruptive.
2. Bully, harass, intimidate, or threaten other students, staff, or other individuals ("cyberbullying").

4. Infringe on copyright, license, trademark, patent, or other intellectual property rights.
5. Intentionally disrupt or harm school technology or other school operations (such as destroying school equipment, placing a virus on school computers, adding or removing a computer program without permission from a teacher or other school personnel, changing settings on shared computers).
6. Install unauthorized software.
7. "Hack" into the system to manipulate data of the school or other users.
8. Engage in or promote any practice that is unethical or violates any law or policy, administrative regulation, or school practice.

If a student uses a personally owned device to access school technology, he/she shall abide by all applicable policies, administrative regulations, and this Agreement. Any such use of a personally owned device may subject the contents of the device and any communications sent or received on the device to disclosure pursuant to a lawful subpoena or public records request. If a student becomes aware of any security problem (such as any compromise of the confidentiality of any login or account information) or misuse of school technology, he/she shall immediately report such information to the teacher or other school personnel. Violations of the law, policy, or this agreement may result in revocation of a student's access to school technology and/or discipline, up to and including suspension or expulsion. As mandated by the federal law enacted by Congress to address concerns about access to offensive content over the Internet on school and library computers, the Children's Internet Protection Act (CIPA) was passed. Our school and library is compliant with CIPA, providing technologies that go above and beyond content filtering to ensure our children are protected.

I have received, read, understand, and agree to abide by this Agreement and other applicable laws and school policies and regulations governing the use of school technology. I understand that there is no expectation of privacy when using school technology. I further understand that any violation may result in loss of user privileges, disciplinary action, and/or appropriate legal action.
